

Delta aPat Pro Print Pack Overview

The Delta aPAT Pro Print Pack is an advanced complete Portable Appliance Testing solution. The pack comes with a Metrel Delta 3309BT, a Zebra P4T for printing quality test tags with custom logos, as well as the advanced aPAT Android interface for effortless data entry, and it's all contained in a purpose-built heavy-duty safe case. aPAT enables the user to quickly and simply manage data of tested appliances and also provides an overview of previously performed tests from scanning a QR code. The application lets the user send results to the main office before leaving test sites, and enter and save data by using a smartphone or tablet.

Features

- Custom heavy-duty carry case
- Appliance tester and printer will operate on batteries or mains power
- Delta 3309BT performs earth bond, insulation, polarity, leakage and RCD tests
- Zebra P4T allows for the printing of Direct Thermal (heat sensitive) and Thermal Transfer (ribbon) test tags
- **aPAT:**
 - Complete database of tested appliances in one location
 - Upcoming retest warning on your smartphone or tablet
 - Simple, custom auto-test creation
 - Use of smartphone barcode or QR code scanner for quick data entry
 - Remote control of Portable Appliance Tester
 - Easy data entry
 - Projects can be stored to your Dropbox account
 - Ability to send data to the main office from remote test sites
