

Orion Gloves Overview

ORION insulating rubber gloves are manufactured in accordance with ATSM D120 to assure the highest dielectric protection. Using a proprietary blend of natural rubber compounds resistant to ozone, our glove provides a longer life while still retaining flexibility and comfort.

HV Class 1-4 are available in Black / Yellow and LV Class 0 in Red. Sizes 8-12 with all half sizes in between.

Size of the gloves

The size should be established as per the gloves' internal perimeter, measured along a parallel line to finger junctions and running through the thumb's junction (left). Standard sizes are mentioned below.
